Dear Ms. Drewry:

I cannot tell you, but I'm sure you must know, how very much we enjoyed your presentation to our IONS group last Sunday at the Moeller Foundation.

You charmed us all, and you were every bit as fascinating as we thought you would be.

We are also very excited about having the prospect of workshops on drumming and voicework. I haven't talked to Ed Zimmer yet, but I guess he'll be getting in touch as he prepares the schedules of classes for the fall.

You are so inspiring! I found everything you said to be in exact accord with my beliefs for as long as I remember and the ones I am accumulating later in life. I have had a few "extrasensory" experiences, but nothing approaching the excitement of yours.

Jeff will be coming March 7th to talk. Why don't you come to be a spectator this time? We would love to have you.

Sincerely,

Laurie Krolick
Program Coordinator
North County IONS Group
